

Human Physiology – ALL 10 Marks Questions (2017–2020)

- | | |
|--|----------------------|
| 1. Erythropoiesis | (Feb 2017) |
| 2. Neuromuscular Junction | (Feb 2017) |
| 3. Action potential in a nerve | (Feb 2017) |
| 4. Short term regulation of blood pressure | (Feb 2017) |
| 5. Cardiovascular & respiratory changes during exercise | (Feb 2017) |
| 6. Wallerian degeneration | (Jan 2018, Aug 2018) |
| 7. Intrinsic mechanism of blood coagulation | (Jan 2018) |
| 8. Cell mediated immunity | (Jan 2018) |
| 9. Functions of cerebellum | (Jan 2018) |
| 10. Oxygen transport in body | (Jan 2018) |
| 11. Micturition | (Apr 2018) |
| 12. Coronary circulation | (Apr 2018) |
| 13. Blood pressure & short term regulation | (Apr 2018) |
| 14. Corticospinal tract | (Apr 2018) |
| 15. Vestibular apparatus | (Apr 2018) |
| 16. Blood group | (Aug 2018) |
| 17. Oxygen transport in blood | (Aug 2018) |
| 18. Renin angiotensin system in BP regulation | (Aug 2018) |
| 19. Wallerian degeneration | (Aug 2018) |
| 20. Muscle spindle | (Aug 2018) |
| 21. Degenerative & regenerative changes after nerve injury | (Jan 2019) |
| 22. Frank Starling law in regulation of cardiac output | (Jan 2019) |
| 23. Myoglobin | (Jan 2019) |
| 24. Thyroid hormone | (Jan 2019) |
| 25. Haemoglobin & its functions | (Jan 2019) |
| 26. Pathway for blood coagulation | (Jan 2020) |
| 27. Mechanism of HCl secretion and its regulation | (Jan 2020) |
| 28. Functions of basal ganglia & chorea | (Jan 2020) |
| 29. Neural regulation of respiration | (Jan 2020) |
| 30. Counter current multiplier | (Jan 2020) |
